Subscription free software to increase engagement

Our range of software is designed to engage and simplify the planning process. Share resources with others and make the most of pre-made activity templates.

Both Lynx and Snowflake MultiTeach are designed with input from end users, to enable seamless collating of media and resources to produce innovative lessons and meetings.

Screen mirroring with built-in presenter controls

Clevershare App is free to download and compatible with Android, Windows, iOS and Chrome devices. Up to 50 devices can connect with the Clevertouch screen and share content – images, video, and audio.

The presenter has full control over what is shared, and can show up to 4 device screens simultaneously, increasing student collaboration and participation within every lesson.

Making integration and installation easier

Clevertouch interactive touchscreens are designed to integrate with your current system set up and work with your current software.

With remote management tools, increased security and network options, and the most comprehensive warranty on the market, Clevertouch offers long-term savings and increased return on investment.
